PROFESSIONAL SUMMARY

Senior-level WordPress Developer with 5+ years of hands-on experience owning WordPress projects from requirements to deployment for healthcare, wellness, e-learning, finance and enterprise clients in the USA, UAE, Australia and India. Builds scalable custom plugins and themes with OOP PHP, designs REST API integrations, runs WordPress Multisite networks and tunes sites for Core Web Vitals using Redis and CDN caching. Applies security best practices (sanitization, escaping, nonces, capability checks) and Git-based staging to production workflows. Delivered 40+ live websites, resolved 80+ production issues and improved Lighthouse scores from about 60 to 90+.

CORE SKILLS

- **WordPress Engineering:** Custom Plugins, Custom Themes, Hooks (Actions and Filters), Custom Post Types, Meta Boxes, Settings API, Gutenberg, ACF, Multisite, WPML, WP-CLI
- **PHP and Databases:** PHP 7+, OOP PHP, MySQL, WP_Query Optimization, Transients and Object Caching
- **APIs and Integrations:** REST API, Custom Endpoints, Booking Systems (JaneApp, Healthie, Optimantra, Gettimely), Payment Gateways, CRM Integrations, Flight Search API
- **E-commerce and LMS:** WooCommerce (checkout hooks, custom features), LMS, Membership Systems
- **Performance:** Core Web Vitals, Lighthouse, GTmetrix, Redis, CDN, Image Optimization (WebP)
- **Security:** Sanitization and Escaping, Nonces, Capability Checks, Malware Remediation, Wordfence, SSL, Backups
- **Delivery:** Git, GitHub, Staging to Production Deployment, cPanel, Postman, Slack, Trello, Agile
- **Front-end:** Elementor Pro, JavaScript, jQuery, HTML5, CSS3, Bootstrap, Tailwind CSS

PROFESSIONAL EXPERIENCE

WordPress Developer | Timus Consultations (Remote, international clients) | Jul 2025 - May 2026

- Owned development and maintenance of high-traffic WordPress platforms with custom PHP functionality.
- Built custom post types, meta boxes, shortcodes, admin interfaces and dynamic content features.
- Implemented REST API integrations and custom endpoints connecting WordPress to CRM, booking and payment services.
- Resolved 80+ complex front-end and back-end issues, reducing client-reported bugs by about 40%.
- Used WP-CLI for migrations, search-replace and bulk updates.

WordPress Developer | Udyot Solution (Remote) | Sep 2024 - Jun 2025

- Delivered 30+ WordPress websites end to end, cutting average page load time by 35% and raising Lighthouse scores from about 60 to 90+.
- Architected custom themes and plugins with OOP PHP, hooks, filters and custom post types.
- Implemented Redis object caching, CDN configuration and on-page SEO to meet Core Web Vitals targets.
- Managed requirements, hosting, deployments, backups and post-launch support across multiple concurrent projects with 100% on-time delivery.

WordPress Developer | Life Balance and Spujah.com (UAE, Remote) | May 2024 - Sep 2024

- Built a WordPress e-learning platform with course management, WooCommerce payments and third-party service integrations.
- Delivered responsive, performance-optimized websites for a lifestyle brand; resolved plugin conflicts and optimized asset delivery.

WordPress Developer / Website Designer | VedicAyurveda, New Delhi | Apr 2020 - Apr 2024

- Led end-to-end development of 15+ wellness and e-learning WordPress websites over 4 years.
- Built WooCommerce stores, LMS integrations and custom membership structures.
- Improved query performance, caching, SEO rankings and site security across projects.

Web Designer / WordPress Developer | Beta Soft Technology, New Delhi | Jul 2018 - Mar 2019

- Developed educational WordPress websites and resolved plugin conflicts, rendering bugs and performance issues.

SELECTED PROJECTS

- indmarkgroup.com - WordPress Multisite network with multiple subdomains, shared user sessions and centralized administration.

- flight-ticket.world - Custom OOP PHP plugin integrating a flight search API with live pricing and availability, error handling and fallback caching.
- optimuserp.tech - Enterprise ERP website with custom post types, role-based admin workflows and CRM data synchronization.
- 77cabs.com - Booking platform with a dynamic fare estimation plugin, location-based logic and WooCommerce payments.
- mdmedspabelred.com, truwellnesscharlotte.com, themdaesthetics.com, mdaesthetics.com.au - Healthcare websites with booking API integrations, payment plans, memberships, WooCommerce shop and a Squarespace to WordPress migration.
- Self-initiated tools (AI-assisted development): AI page builder plugin for Elementor, AI HTML website generator, and a WebP image optimization plugin.

EDUCATION

Bachelor of Computer Applications (BCA) | Vivekananda Institute of Professional Studies (VIPS), New Delhi, India
