PROFESSIONAL EXPERIENCE

WordPress Developer | Timus Consultations (Remote, international clients) | Jul 2025 - May 2026

- Developed and maintained high-traffic WordPress websites with custom PHP functionality for international clients.
- Built custom post types, shortcodes and dynamic content features to match business requirements.
- Diagnosed and resolved 80+ front-end and back-end issues, reducing client-reported bugs by about 40%.
- Implemented REST API integrations and custom endpoints to connect WordPress with third-party services.

WordPress Developer | Udyot Solution (Remote) | Sep 2024 - Jun 2025

- Built and deployed 30+ WordPress websites, cutting average page load time by 35% and raising Lighthouse scores from about 60 to 90+.
- Developed custom themes and plugins using OOP PHP, hooks, filters and custom post types.
- Implemented responsive layouts, Redis and CDN caching and on-page SEO to meet Core Web Vitals targets.
- Managed hosting, deployments, backups and updates; worked with design and marketing teams on UI/UX implementation.
- Handled multiple client projects under tight deadlines with 100% on-time delivery.

WordPress Developer | Life Balance and Spujah.com (UAE, Remote) | May 2024 - Sep 2024

- Designed and developed responsive WordPress websites for a lifestyle brand serving UAE and international audiences.
- Built a WordPress e-learning platform with course management, WooCommerce payments and service integrations.
- Created custom Elementor layouts, resolved plugin conflicts and optimized performance and mobile responsiveness.

WordPress Developer / Website Designer | VedicAyurveda, New Delhi | Apr 2020 - Apr 2024

- Led end-to-end development of 15+ wellness and e-learning WordPress websites over 4 years.
- Integrated WooCommerce stores, LMS course systems and custom membership content structures.
- Improved UI/UX, SEO rankings and site performance, increasing user engagement.

Web Designer / WordPress Developer | Beta Soft Technology, New Delhi | Jul 2018 - Mar 2019

- Developed educational and content-rich WordPress websites with cross-browser compatibility.
- Resolved plugin conflicts, front-end bugs and rendering issues; delivered fast-loading sites.

PROJECTS

AI Website Builder Tools (self-initiated, AI-assisted development)

- Built an AI page builder plugin for Elementor that auto-creates Home, About, Services, Testimonials and Contact pages from business name, industry and brand colors.
- Built an AI tool that generates complete HTML websites from a business brief, with manual customization on top.
- Developed a custom WordPress plugin that compresses images and converts them to WebP, improving PageSpeed scores.

Client Websites

- mdmedspabelred.com - Med spa and primary care site (Redmond, WA): Elementor build, 20+ service pages, JaneApp booking, Google Reviews integration, secure contact forms.
- truwellnesscharlotte.com - Medical wellness clinic (Charlotte, NC): WordPress and Elementor, Healthie booking, PatientFi payment plans.
- themdaesthetics.com - Wellness and aesthetics clinic (CA): Optimantra booking, before/after gallery, memberships, WooCommerce skincare shop.
- mdaesthetics.com.au - Cosmetic clinic (Perth, Australia): Squarespace to custom WordPress migration, treatment pages, Gettimely booking.
- 77cabs.com - Transportation booking platform with a dynamic fare estimation plugin and WooCommerce payments.
- optimuserp.tech - Enterprise ERP website with custom post types, admin workflows and CRM integration.

EDUCATION

Bachelor of Computer Applications (BCA) | Vivekananda Institute of Professional Studies (VIPS), New Delhi, India
